Tim Mesch approached the Board about setting up a solar array for his private residence on Peck Hill. He was looking for any specifications related to solar that might currently be in the code. Mr. Mesch was advised to develop a more defined plan of the array needed for his use, and then reach out to the CEO for guidance from there.

David Swift approached the Board about the Comprehensive Plan initiative, and what the current status of that was. The process to date was described to Mr. Swift, who was interested to know if copies of the plan were available to the public. The plan is currently in draft form and, once finalized, will be available before any public hearing is held on the document.

Meeting adjourned at 8:15 pm.
